Please note that if the instructions here ever differ from the PDF Task instructions, you need to follow these (form) instructions as they will be the most up-to-date.

If you're self-employed:

Input the contact details of companies and the business contacts of places you would pitch your services or products to.

If you're not self-employed:

Think about the sort of roles you might like to apply for and the sort of companies you might want to work for. Find 5 junior tech roles currently being advertised, ensuring you consider large and small companies as well as tech startups. For each of these, identify the recruiting/hiring managers (possibly the Talent or HR people at each company). Capture the details of each of the 5 roles and contacts in this form. If any of your URLs are greater than 255 characters, shorten them by using bitly.com and paste the shortened version into the form.
